

CALIFORNIA 1400 TOURING ABS

CALIFORNIA 1400 CUSTOM ABS

Moto Guzzi California 1400

The new Moto Guzzi California family redefines the concept of the luxury bike. The California Custom and California Touring revolutionize the touring and cruiser segment by introducing breakthrough technologies blended with unmistakable Italian design.

- The largest V-twin cylinder engine ever made in Europe, able to produce an explosive torque of 89 ft. lbs. at just 2750 rpm
- Electronic cruise control
- MGCT traction control and multi-map Ride-by-Wire technology, with 3 different riding modes: Touring, Sport and Rain. ABS is standard on both versions
- The first cruiser in the world to sport a headlight assembly equipped with LED daylight running lights
- A brand new double cradle frame equipped with an elastic engine support system capable of completely eliminating vibration
- A new cardan shaft drive, best in class with smooth and quiet operation, and unmatched reliability
